1 Can the application be installed? 2 Can it be updated? 3 Can it be removed? The application is updated 3 Can it be removed? The application is removed Does it behave correctly after It behaves correctly Does it behave correctly when the battery is low? Does it behave correctly when the Charger is connected? Does it behave correctly when the Does it behave correctly when the Charger is disconnected? Does it behave correctly when the Does it behave correctly when the Charger is disconnected? Does it behave correctly when Does Does it behave correctly When Does Does Does Does Does Does Does Does
3 Can it be removed? Does it behave correctly after It behaves correctly Does it behave correctly when the battery is low? Does it behave correctly when the charger is connected? Does it behave correctly when the charger is disconnected? Does it behave correctly when the charger is disconnected? Does it behave correctly when the charger is disconnected? Does it behave correctly when unlocking the screen? It behaves correctly It behaves correctly It behaves correctly It behaves correctly
Does it behave correctly after installation? Does it behave correctly when the battery is low? Does it behave correctly when the charger is connected? Does it behave correctly when the charger is disconnected? Does it behave correctly when the charger is disconnected? It behaves correctly It behaves correctly It behaves correctly Does it behave correctly when unlocking the screen? It behaves correctly It behaves correctly It behaves correctly It behaves correctly
4 installation? Does it behave correctly when the battery is low? Does it behave correctly when the charger is connected? Does it behave correctly when the charger is disconnected? Does it behave correctly when the charger is disconnected? Does it behave correctly when ltbehaves correctly
Does it behave correctly when the charger is connected? It behaves correctly
6 charger is connected? Does it behave correctly when the charger is disconnected? Does it behave correctly when unlocking the screen? Does it behave correctly when lt behaves correctly Does it behave correctly when lt behaves correctly Let behaves correctly the correctly when lt behaves correctly
7 charger is disconnected? Does it behave correctly when sunlocking the screen? Does it behave correctly when lt behaves correctly It behaves correctly
8 unlocking the screen? It behaves correctly Does it behave correctly when
III hohoyoo oorrootky
Does the application go to hibernation 10 when it is running in background? It goes to hibernation
Buttons appereance for standard actions is familiar to user (update, Buttons appereance for standard actions is familiar to user (update, actions is familiar to user actions is familiar to user
The application behaves correctly 12 when portrait orientation? It behaves correctly
The application behaves correctly when landscape orientation? It behaves correctly
Is it easy to distinguish active 14 from inactive buttons? It is easy to distinguish
How does it behave if device is out 15 hibernation? It behaves correctly
Does it behave correctly when device 16 is in air mode? It behaves correctly
How do all buttons/active areas work 17 when we use a phone screen protector? All work perfect
Does it behave as expected if network is unavailable? It behaves correctly
19 Was it tested on the other operation system? It was tested

If the application stops unexpectedly,			
user data should be			
stored locally and be available when	After unexpectedly stop user data		
the application starts	available & are stored locally		
	When deleting a user receive a		
When deleting a user is informed about	message: "Do you realle want to		
21 consequences by a message	delete without saving? Y/N"		
Does it behave correctly when incoming call?	It behaves correctly		
23 Does it behave correctly when incoming SMS?	It behaves correctly		
Does it behave correctly when incoming			
Push-message?	It behaves correctly		
Does it interact correctly with GPS?	It behaves correctly		
If you have a physical button "Back" in device,			
does it return user to a previous screen?	It returnes user to a previous screen		
If you have a physical button "Menu" in device,	•		
does it open application's menu?	It opens application's menu		
28 Switch from 4G to Wi-Fi	The application continues working		
29 Switch from Wi-fi to 4G	The application continues working		
30 Switch from 5G to E	The application continues working		
How does it behave when select multiple options	The application doeesn't allow to select		
31 at the same time?	multiple options at the same time		
32 Search function should be available for long lists	Search function is available		
33 Does it behave corretly when we shake the device?	It behaves correctly		
34 Does it correctly connect to social media?	It connects correctly		
Search functionality displays relevant	Search functionality displays relevant		
35 results	results		
The main application function is understood	It's understood		
Does the application continue working when			
accesses the network again after interrupted			
37 access?	It continues working		
38 If there's a list try to scroll from the first to the last	It scrolls well		
The application doesn't interrupt flashlight	It doesn't interrupt		
10 Does zoom in/ zoom out behave correctly?	It behaves correctly		
11 Do all links work correctly?	All links work correctly		
12 Do all tabs work correctly?	All tabs work correctly		
43 Create a profile filling in valid data	Profile is created		
44 Create a profile leaving all fields empty	Profile isn't created		
45 Check E-mail message after successful registration	+		
io o io	E-mail message is present		

47	Do all functions work for an unauthorized user?	All functions work		
	Do all new options become available after	New options become available		
48	authorization for an authorized user?	for an authorized user		
	Try to do option for an authorized as an			
49	unauthorized user	There's a message "Please, registrate yourself"		
50	Does the screen the same after swiping up?	The screen is the same
